KEY – Audio Key Chain \$10

This black key chain bears a red and yellow Planet Logo and plays ten seconds of Big Bang Bar audio with the press of a button. Batteries are included and replaceable (3x AG13). The picture to the right is a graphical mock-up. The actual item may look a little different.

This product is currently limited to 100 units. Additional runs will only be considered in 100 unit increments, based upon demand and therefore seems unlikely.

SHOT – 1.5 oz. Shot glass \$3

A standard tapered shot glass with a custom two color Planet Logo. This shot glass was chosen for its similarity to the two shot glasses that are lying on their sides in front of the passed out green dragon/elephant on the cabinet. The picture to the right is a graphical mock-up. The actual item may look a little different.

This product is currently limited to 288 units. Additional runs will only be considered in 144 unit increments, based upon demand and therefore seems unlikely.

MUG – 16 oz. Beer mug \$7

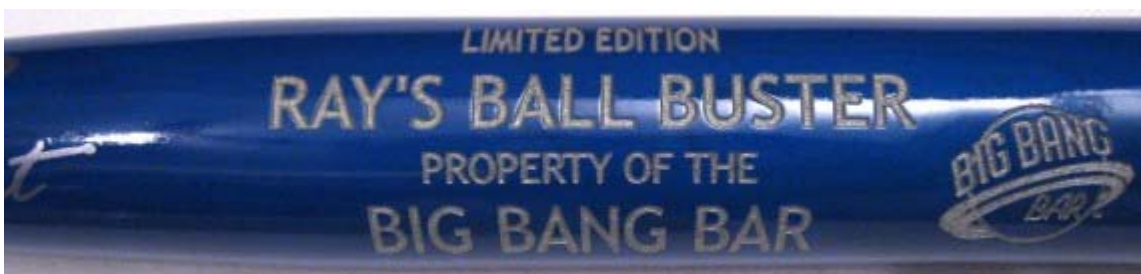

A glass mug with thumb-rest handle imprinted with a three color red and yellow Planet Logo on each side. This mug style was chosen for its similarity to the mug Ray is holding on the translite. The picture to the right is a graphical mock-up. The actual item may look a little different.

This product is currently limited to 144 units. Additional runs will only be considered in 144 unit increments, based upon demand and therefore seems unlikely.

BAT/BL – Blue Barrel, Purple Handle (only 17 units available)
BAT/GR – Light Green Barrel, Purple Handle (only 5 units available)

Ray's Ball Buster - 33" engraved two-tone stained hardwood softball bat \$80

The handles of the bats are stained dark purple in honor of the purple cabinet paint and the purple background of the cabinet art. The blue barrel color is reminiscent of the dark blue used in the cabinet art. The green barrel color is reminiscent of the light green used in the cabinet art. These bats were individually crafted so there are variations in the grain, coloring, and engraving.

This product is currently limited to 22 units. Please specify BAT/BL or BAT/GR and whether or not the other is acceptable if your first choice is sold out. Additional runs will only be considered in 12 unit increments, based upon demand.

The dark green barrel bat at the bottom of the picture was a production error that ended up being reminiscent of the dark green used in the cabinet art. The dark green bat may be made available if an additional run is done and the company can duplicate the color.

TUBE – Tube Dancer Glass \$T/B/D (approx. \$10±\$2)

I hope to produce a hi-ball or zombie glass in the 13 oz. range that will have either the Tube Dancer on one side and a custom two-tone blue Planet Logo on the reverse or that has the Tube Dancer on both sides. There is a lot of detail in the Tube Dancer artwork and I have not found a suitable vendor that has both the glass that I want and the quality assurances that I desire. With luck I will find a vendor soon. I would love to know how much interest there is in this item so I can adjust the quantity ordered to match demand. The picture to the right is a graphical mock-up. The actual item may look somewhat different.
